CAREER OBJECTIVE

Creative and user-focused UI/UX Designer with skills in design thinking, design systems, and front-end development. Experienced in using Figma, and modern web tools to turn user needs into clear, attractive, and easy-to-use designs. Passionate about creating responsive and accessible experiences through research and continuous improvement.

EDUCATION

Gramaudyogik Shikshan Mandal Maharashtra Institute of Technology (MIT) Aurangabad, India
B.Tech in Computer Science and Engineering 2022 – 2026

SKILLS

Design Tools: Figma, Photoshop (Basic), Canva, After Effects (for motion graphics), ProtoPie (Prototyping)
Design Skills: Wireframing, Prototyping, User Research, Visual Design, Auto Layout, Components, Variants, Interaction Design, User Flows, Information Architecture, Design Thinking, Design Systems
Front-End Development: HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap
Other Tools: Git, GitHub, Notion, Vercel, VS Code

PROJECTS

- RentEasy** | *See RentEasy* 2024
- Designed a conceptual platform to help students in tier-2 cities find verified rental housing.
 - Used AI-assisted secondary research to identify pain points in affordability, discovery, and trust.
 - Created personas, empathy maps, user flows, and prototypes to propose solutions for search, filtering, and landlord communication.
- Brew And Sip** | *See Brew And Sip* 2025
- Conceptualized and designed a mobile app for coffee enthusiasts to explore, order, and learn about diverse coffee varieties.
 - Created an intuitive and visually engaging UI, incorporating personalized recommendations, loyalty rewards, and order tracking features.
 - Developed interactive prototypes to demonstrate seamless navigation and user-friendly product discovery.
- Homely** | *See Homely* 2025
- Designed a visually appealing, modern website for Homely, focusing on layout, color schemes, and typography.
 - Created high-fidelity UI prototypes showcasing decor ideas, product highlights, and interactive elements.
 - Implemented consistent visual hierarchy and responsive design to enhance aesthetic appeal across devices.
- UI Redesign Collection** | *See Designs* 2024
- Redesigned diverse web and dashboard interfaces, including e-commerce platforms, electronics stores, and admin panels, enhancing usability and visual appeal.
 - Implemented consistent visual hierarchy, spacing, and typography to create clear, intuitive user experiences.
 - Developed a modular design system with reusable components, standardized UI patterns, and accessible color palettes for scalability.
 - Optimized designs for responsiveness and cross-device consistency, ensuring seamless interaction across platforms.
